

CONCEPT: ISSUING NO PAR VALUE COMMON STOCK

- When a company **issues** shares of common stock, it just means they are selling them to the public
 - **Selling Price** – The amount the investors paid per share of common stock
 - **Par Value** – The amount for which a security can be redeemed
 - A \$1,000 par value bond can be redeemed for \$1,000
 - Common stock generally has a _____ par value
 - **Additional Paid-in Capital** – The amount above _____ that investors paid for the stock

- When common stock has no-par, all of the proceeds are included in the _____ account

The Apartment Depot issued 500,000 shares of no-par common stock for \$250,000.

Journal Entry:

<u>Assets</u>	=	<u>Liabilities</u>	+	<u>Equity</u>
---------------	---	--------------------	---	---------------

The Apartment Depot issued 500,000 shares of no-par value common stock for \$2 per share.

Journal Entry:

<u>Assets</u>	=	<u>Liabilities</u>	+	<u>Equity</u>
