CONCEPT: ISSUING NO PAR VALUE COMMON STOCK

| • When a company <i>issues</i> shares of common stock, it just means they are selling them to the public | | | |
|--|----------------------|---|---------------|
| □ Selling Price – The amount the investors paid per share of common stock | | | |
| □ Par Value – The amount for which a security can be redeemed | | | |
| - A \$1,000 par value bond can be redeemed for \$1,000 | | | |
| - Common stock generally has a par value | | | |
| □ Additional Paid-in Capital – The amount above that investors paid for the stock | | | |
| When common stock has no-par, all of the proceeds are included in the account | | | |
| The Apartment Depot issued 500,000 shares of no-par common stock for \$250,000. | | | |
| Journal Entry: | | | |
| | | | |
| | | | |
| Assets | = <u>Liabilities</u> | + | <u>Equity</u> |
| <u>1.00010</u> | <u> </u> | | <u> </u> |
| | | | |
| The Apartment Depot issued 500,000 shares of no-par value common stock for \$2 per share. | | | |
| Journal Entry: | | | |
